UNO

A quick guide to the cards, the deck and the rules

RED | YELLOW | GREEN | BLUE

Overview

UNO is a shedding card game for 2 to 10 players (ages 7+). The goal is to be the first player to get rid of every card in your hand by matching the top card of the discard pile by **colour**, **number** or **symbol**. Points are scored from the cards left in opponents' hands, and the first player to reach **500 points** wins the game.

Card Colours

There are four colours: **Red**, **Yellow**, **Green** and **Blue**. Wild cards are black and have no colour of their own; the player who plays one chooses the colour that play continues in.

Numbers on the Cards

Number cards run from **0 to 9**. Each colour has **one 0** and **two each of 1 through 9**, giving 19 number cards per colour and 76 in total.

Number of Cards (Classic 108-card deck)

Card type	Per colour	Total in deck
Number 0	1	4
Numbers 1–9	2 of each (18)	72
Skip	2	8
Reverse	2	8
Draw Two (+2)	2	8
Wild	—	4
Wild Draw Four (+4)	—	4
Total	**25 per colour**	**108**

Note: decks printed since 2018 have 112 cards, adding 1 Wild Shuffle Hands card and 3 blank Wild Customizable cards you can write your own rule on.

Action Cards

Card	What it does
Skip	The next player loses their turn.
Reverse	Reverses the direction of play. With 2 players it acts like a Skip.

Card	What it does
Draw Two (+2)	The next player draws 2 cards and loses their turn.
Wild	Can be played on any card; the player chooses the next colour.
Wild Draw Four (+4)	Player chooses the colour; the next player draws 4 cards and loses their turn. It may only be played if you have no card matching the current colour.
Wild Shuffle Hands*	All hands are collected, shuffled and dealt out again; player chooses the colour.

* newer decks only

Setting Up

- Each player draws a card; the highest number deals (action cards count as zero).
- Shuffle and deal **7 cards** to every player.
- Place the remaining cards face down as the **draw pile**, then turn the top card over to start the **discard pile**.
- If the first card is an action card, its effect applies to the first player (a Wild Draw Four is returned and a new card turned over).

How to Play

- Play goes clockwise, starting with the player to the dealer's left.
- On your turn, play one card that matches the top discard by colour, number or symbol, or play a Wild.
- If you can't (or choose not to) play, draw one card. If it can be played, you may play it immediately; otherwise your turn ends.
- When the draw pile runs out, shuffle the discard pile (except the top card) to form a new draw pile.

Calling “UNO!”

- When you play your second-to-last card, you must shout **“UNO!”**.
- If another player catches you before the next player begins their turn, you draw **2 penalty cards**.

Challenging a Wild Draw Four

If you think a Wild Draw Four was played illegally (the player held a matching colour), you may challenge. The player shows you their hand. If guilty, **they** draw 4 cards instead. If innocent, **you** draw 6 cards (the 4 plus 2 penalty).

Scoring

When a player empties their hand, they win the round and score points for all cards left in opponents' hands:

Card	Points
Number cards (0–9)	Face value
Skip, Reverse, Draw Two	20 each
Wild Shuffle Hands / Customizable*	40 each
Wild, Wild Draw Four	50 each

The first player to reach **500 points** wins. Alternatively, players can keep a running total of the points left in their own hands, and when one player reaches 500, the player with the **lowest** score wins.

Common House Rules (not official)

- **Stacking:** answering a +2 with another +2 (or +4) to pass a bigger penalty along.
- **Seven-O:** playing a 7 lets you swap hands with someone; playing a 0 passes every hand along.
- **Jump-in:** playing an identical card out of turn.
- **Draw until you can play:** keep drawing instead of drawing just one card.
